

A12 Chelmsford to A120 widening

Supplementary consultation

Have your say

The proposed scheme will widen the existing A12 between junctions 19 and 25 to three lanes in each direction (where it is not already) and create a three-lane bypass in each direction at Rivenhall End. The proposals also include a bypass between junctions 24 (Feering) and 25 (A120 Marks Tey interchange).

Following on from the Statutory Consultation held this summer, we have looked at your feedback and made some further changes to our proposals. This is your opportunity to have your say on those changes before we submit our planning application in 2022. For more information, visit our online exhibition at www.nationalhighways.co.uk/A12
