

## A358 Taunton to Southfields Dualling Scheme

### Notice Publicising a Proposed Application for a Development Consent Order

#### Supplementary Consultation

**National Highways Limited** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ (“the Applicant”) intends to make an application (“the Application”) under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order (DCO).

National Highways undertook a statutory consultation in relation to its proposed application between Tuesday 12 October 2021 and Monday 22 November 2021. As part of the development of the scheme and having had regard to responses received to its statutory consultation, National Highways is now undertaking a supplementary consultation in relation to proposed changes to the scheme. This supplementary consultation is taking place from **Tuesday 24 May 2022 to Sunday 26 June 2022**.

National Highways is proposing to upgrade approximately 8.5 mile (13.6 km) section of the A358 between the M5 at Taunton and the Southfields roundabout on the A303 to a high-quality and high-performing dual carriageway. The route would connect junction 25 of the M5 at Taunton with the existing A303 at Southfields roundabout near Ilminster.

The changes to the proposals since the 2021 public consultation sit in the following broad categories:

- **Transport, traffic flows and access**
- **Walking, cycling, horse-riding and disabled user access**
- **Environmental mitigations**
- **Location of main construction compound**

Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of the *Consultation Report*.
