Colours are provided to indicate the geographical extent of each Character Area as defined by the Local Character Area study. Each character area in the plan can be followed through the tables on the plan which provide the Character Area name or reference number (if dependent on the nomenclature used by the relevant local authority).
Colours are provided to indicate the geographical extent of each Character Area as defined by the Local Character Area study. Each character area in the plan can be identified through the notes on the plan which provide the Character Area name or reference number/letter depending on the nomenclature used by the relevant local authority.
