Design refinement consultation response form

South of the river in Kent
This refers to the section of the proposed route crossing the 1000m wide section of the southern tunnel entrance.

The Guide describes the proposed changes to the junction of the A2 and the Lower Thames Crossing, including the proposed junction with the A2 and Lower Thames Crossing, which includes a proposed junction with the A2, developed proposals for the proposed approach, including the proposed compensation planting, and developed proposals for the proposed approach.

Q1a. Do you support or oppose the proposed design south of the river?
Please refer to the Design Refinement Chapter of the Guide.

Strongly support Support Neutral Oppose Strongly oppose Don't know

Q1b. Please let us know the reasons for your response to Q1a and any other comments you have on the proposed design south of the river.

Introduction

Earlier this year we carried out a non-statutory supplementary consultation on our proposals for the Lower Thames Crossing, that will connect Kent, Thurrock and Essex through a tunnel beneath the River Thames. The supplementary consultation sought views on changes to the proposals presented during our statutory consultation in 2018, and updates to the project where further information had become available.

This consultation explains the refinements we have made to the design of the project. These have been informed by feedback received from our supplementary consultation, continued engagement with our stakeholders, ongoing design work and a greater understanding of technical constraints.

We are seeking your views to help us shape our proposals further before we submit our Development Consent Order (DCO) application to the Planning Inspectorate later this year.

We are asking a series of questions on the design refinements which we are proposing. You are welcome to answer all or only some of the questions in this response form, depending on the issues that are most important to you. There is also an opportunity to comment generally on the project and this consultation.

If you provided feedback during our statutory consultation in 2018 or the supplementary consultation earlier this year, your comments will be summarised in our Consultation Report. This will include an explanation of how we have considered each point raised by respondents.

The Consultation Report will also form part of our DCO application to the Planning Inspectorate later this year. If you wish to refer to points made in response to the earlier consultations, we ask that you please copy them into this response form rather than referring to them. Any further feedback we receive during this consultation will also be included and responded to in the report.

We have produced a set of consultation documents to explain the updates to the project and the design changes we are proposing to make. These include a Guide to design refinement consultation (the guide), Map Books, an Environmental Impacts Update and this response form. All of these documents are available on the design refinement consultation website: **www.lowerthamescrossing.co.uk/design-consultation**

Full details of how you can respond to this design refinement consultation can be found at the back of this form.

Please submit your response by 23.59 on 12 August 2020.

Data privacy notice

We are committed to protecting your personal information. Whenever you provide such information we are legally obliged to use it in line with all applicable laws concerning the protection of personal data, including the General Data Protection Regulation (GDPR).

How will Highways England use the information we collect about you?

We will use your personal data collected via this consultation for a number of purposes, including:

- to analyse your feedback to the consultation
- to produce a Consultation Report, based on our analysis of responses (individuals will not be identified in the report)
- to write to you with updates about the results of the consultation and other developments
- to keep up-to-date records of our communications with individuals and organisations

Any personal information you include in this form will be handled and used by (or made available to) the following recipients to record, analyse and report on the feedback we receive:

- Highways England
- Traverse (which has been contracted by us to analyse feedback to the consultation)
- The Planning Inspectorate (which will consider our application for permission to build the Lower Thames Crossing)
- The Secretary of State (who will take the decision on our application)
- our legal advisers
- consultants working on the Lower Thames Crossing project

It is also possible that trusted third-party providers, for example construction companies, may later use the contact details provided in your responses to communicate with you.

What rights do I have over my personal data?

Under the terms of the GDPR you have certain rights over how your personal data is retained and used by Highways England. For more information, see our full data privacy statement: www.highwaysengland.co.uk/privacy

1. Design refinements

For the purposes of this design refinement consultation, we have divided our proposed route for the Lower Thames Crossing into two sections, starting with the section south of the river in Kent, then the section to the north of the river in Thurrock and Essex.

The proposed refinements outlined in each section include changes to:

- highways
- utilities
- landscaping
- construction
- environment
- routes for walkers, cyclists and horse riders

A detailed description of our proposed refinements to the route for the Lower Thames Crossing is in chapter 3 of the guide and is presented in the Map Books.

South of the river in Kent

This refers to the section of the proposed route starting at the M2/A2 and ending at the southern tunnel entrance.

M2/A2 area proposals

The guide describes the proposed changes to sections of the M2/A2 around the junction with the Lower Thames Crossing. Changes include: refinements to Thong Lane green bridge over the A2 and the Lower Thames Crossing; a new electricity switching station at Thong Lane; further developed proposals for the ancient woodland mitigation and compensation planting; and landscaping proposals around the electricity substation at the southern tunnel entrance.

Q1a. Do you support or oppose the proposed changes south of the river?

Please refer to the [Design refinements chapter of the guide](#).

Q1b. Please let us know the reasons for your response to Q1a and any other comments you have on the proposed changes south of the river.

North of the river in Thurrock and Essex

This refers to the section of the proposed route starting at the northern tunnel entrance and ending at the connection with the M25 at junction 29.

As presented in the guide, we have split this into four sub-sections:

- The Tilbury area. Changes include: a new landform proposal to provide views overlooking the Thames Estuary, and works to install the utilities required to power the tunnel boring machine and provide power supply to the northern tunnel entrance.
- The area around the A13/A1089 junction. Changes include: a new area of land for the relocation of the traveller site, a new permanent gas pipeline compound at Stanford Road and a new noise barrier along the Lower Thames Crossing east of Brentwood Road.
- The area around the Lower Thames Crossing junction with the M25. Changes include: diversions to some utility works, relocating a construction site and refining the woodland planting proposals north of the Thames Chase Forest Centre.
- The area around the M25 junction 29. Changes include: a new footbridge over the A127, a gas pipeline diversion near Folkes Lane and moving overhead electricity cables underground near the B186 Warley Street.

Q1j. Please let us know the reasons for your response to Q1i and any other comments you have on the proposed changes in the area around the M25 junction 29.

2. Revised development boundary

Some of the refinements that we are now proposing mean that the area of land that may be required to build the Lower Thames Crossing, and to provide mitigation for some of the impacts of building it, has changed since supplementary consultation. This is called the revised development boundary. Some of the land within the revised development boundary would be required permanently, while other areas would only be required on a temporary basis. In addition, in some locations the Lower Thames Crossing would impact existing areas of special category land and sports clubs. Please refer to the Property and landowners chapter of the guide for further details.

Q2a. Do you support or oppose the changes to the proposed area of land that would be required to build the Lower Thames Crossing?

<input type="checkbox"/>					
Strongly support	Support	Neutral	Oppose	Strongly oppose	Don't know

Q2b. Please let us know the reasons for your response to Q2a and any other comments you have on the proposed changes to land that would be required to build the Lower Thames Crossing. This includes feedback on the impact the project would have on any land that you may own or have another legal interest or right in.

Q2c. Do you support or oppose the proposals put forward regarding special category land and sports clubs?

<input type="checkbox"/>					
Strongly support	Support	Neutral	Oppose	Strongly oppose	Don't know

Q2d. Please let us know the reasons for your response to Q2c and any other comments you have on the proposals regarding special category land and sports clubs.

3. Environmental impacts and how we plan to reduce them

In our Environmental Impacts Update, we have explained how the changes we are proposing affect the preliminary environmental information that was presented at our statutory consultation in 2018 and in the previous Environment Impacts Update, published as part of our supplementary consultation. Please refer to the Environmental impacts chapter of the guide and our Environmental Impacts Update document.

Q3a. Do you support or oppose the changes to the environmental impacts of the Lower Thames Crossing?

<input type="checkbox"/>					
Strongly support	Support	Neutral	Oppose	Strongly oppose	Don't know

Q3b. Please let us know the reasons for your response to Q3a and any other comments you have on the environmental impacts of the proposed changes to the Lower Thames Crossing.

4. Other comments

We welcome any other comments you would like to make about the Lower Thames Crossing.
